MCA : Fullstack Development

Jain University

Projects

TheDrip.

"TheDrip" is a novel e-commerce platform targeting the young, fashion-forward audience, a demographic that has grown up with and appreciates anime culture. By focusing on subtle, "low-key" anime-inspired street-wear, "TheDrip" bridges the gap between mainstream fashion and niche anime merchandise.

Technologies: React, ShadCN UI, Framer Motion, JWT, Spring Boot, AWS S3, Stripe, Vercel
